

LEADERS IN WAX TECHNOLOGY

THE FINEST NATURAL WAXES IN THE WORLD SINCE 1904

APPLICATIONS GUIDE

ALL NATURAL CANDLE BLENDS

| S & P Number | Name | Description | Application | Do's | Don'ts |
|--------------|---|--|---|---|---|
| SP-470 | All Natural crystalline pillar blend | A combination of natural waxes, providing a good clean burn expected of natural wax candles. | Votive blend and exhibits - excellent fragrance retention and throw. | We suggest that the mold be heated and that the wax be poured into the mold at a temperature between 160°F (71°C) and 170°F (76.7°C). | |
| SP-483P | All natural smooth pillar blend. | Smooth and Creamy texture easy to burn and handles like paraffin. | Votive blend, pillars of all types, tart pans, balls, pyramids, etc. | DO: Use cotton or paper core wicks. Please contact wick-it for more information 866-3WICKIT or 973-249-2970 | DO NOT: Overload the fragrance (5-6% MAX.) |
| SP-486P | All natural free standing candle blend. | Hard crystalline texture, exceptional mold release, excellent fragrance loading capacity. | Votive blend, pillars of all types, tart pans, balls, pyramids, etc. | DO: Use cotton HTP wicks, pour hot for best effect (175°F-185°F) | DO NOT: Use paraffin based color chips or overheat. (195°F) |
| SP-487P | All natural container candle blend. | Hard crystalline texture, very good adhesion to the glass, excellent fragrance loading capacity. | Great for 4-16oz. containers (May require a second wick in a 27oz. jar) | DO: Use cotton or paper core wicks, pour hot for the best effect (175°F-185°F) | DO NOT: Use paraffin based color chips or overheat. (195°F) |
| SP-488 | All natural smooth container blend. | Smooth & creamy texture easy to burn & handles like paraffin. | For large (27oz.) jars, frosted containers, anywhere paraffin | DO: Use cotton or paper core wick | DO NOT: Overload the fragrance (6-7%) |
